

Engineer Vendor of Record

We are pleased to provide the Engineer Vendor of Record (VOR) for construction services for high-complexity projects that will be delivered by Colliers Project Leaders on behalf of Infrastructure Ontario.

The Engineer VOR is a single, province-wide list of qualified consultants that Colliers Project Leaders will use to invite firms within a defined category, region and dollar threshold for a project.

We derived the pool of eligible qualified consultants from the Request for Prequalification (RFPQ) issued in August 2024 through MERX. During this process, vendors selected their key identifiers and provided evidence of their capacity and capability to deliver on projects.

The Key Identifiers are:

- Categories: Mechanical, Electrical, Civil, Structural, Environmental, Building Sciences and Security
- Regions: Central, North East, North West, South West and Eastern
- Dollar Thresholds: \$0 – \$249,999 and \$250,000 – \$999,999

These key identifiers will be used in the second stage invitation process, during which a set number of eligible qualified consultants will be selected using the MERX system's random-rotation mechanism.

How long is the VOR list in effect?

The VOR list is set for a three (3) year term, extending to September 2027. Companies that are not on the VOR list and wish to become qualified consultants will have an opportunity to respond to an annual RFPQ issued via MERX in the summer timeframe.
